Malaysia Lysosomal Diseases Association (MLDA)

What is MLDA?

The Malaysian Lysosomal Diseases Association (MLDA) was founded in May 2011 and is run by a group of parents as a not-for-profit organization. The main goal is to represent the interests of LSD patients and their families to strive for equal treatment and rights.

MLDA's greatest challenge is to find a way to ensure that every eligible LSD patients gets the needed lifelong treatment of ERT, despite the exorbitant medical cost. Each individual ERT costs about MYR 1 Million a year. No family is able to cover this cost on their own, nor are the insurance companies in the country willing to provide the patients with the reimbursement required for the treatment.

Why do we need volunteers?

To help MLDA in achieving our mission which is to:

1. Educate and increase public awareness on the existence of LSD.
2. Advocate and work with policy makers towards better support for LSD patients.
3. Support the welfare of LSD patients and their families.

Our charity relies on your help to support our association, promote our events and involved in event management. As a volunteer you shall enjoy the opportunity to participate in MLDA's volunteer activities or service.

We had planned a wonderful set of activities and events to be held for MLDA children this year (starting this May). Hence, we are looking for individuals who are ready to volunteer for the services involved in making our event a success!

Role descriptions:

1. Event volunteer (to act as helpers or participate in the event)
2. Art designer (for our campaign, T-shirt, banner, etc)
3. Newsletter Editor (monthly basis)
4. Media Man (in charge of Video Record and Pictures)

***the criteria listed above are not compulsory for all volunteers.
